

The West of England Scottish Terrier Spring Open Show. April 12th. 2015.

Many thanks for an enjoyable and interesting day at a very hospitable show with such a friendly atmosphere.

My job was helped so much by the hard work of the Secretary and the Committee and also by my highly competent and most efficient ring steward.

I thought this was a good quality entry with the bitches being a little stronger overall. My main winners were most pleasing with some promising youngsters just behind. Coats were generally quite good though I did notice some of soft texture and there were a few narrow fronts.

The main awards were as follows;-----

BIS. Emmins Kingsview Just the One.

Quality well made bl with good double coat and although not the biggest is balanced right through and all of a piece. She has a clean head, good bite, excellent front and scored in eye, ears and neck with just the right bone, is short in the back, well ribbed up with a level topline and good set on. Strong hindquarters produced plenty of drive on the move.

RBIS and BOS. Hills Rolanka Pass the Buck to Benartybrae.

This wheaten put in a strong challenge for BIS with his long head, good bone and substance all through. Pleased in eye, ears and neck, well ribbed up with a strong loin and plenty behind the tail he moved out well both ways holding a level topline.

BPIS. Chicks Brueik All the Aces.

Promising young lad, well made and nice for size and shape. Clean head, strong jaw and good dentition were all complemented by a dark, expressive eye, neat ears and just enough neck. Held a level topline on the move with good side gait.

BVIS. Corneys Rilyson Island Princess.

Carries her age well, plenty of quality here and was a strong contender in the bitch challenge. Good length of head, straight front and plenty of bone with well carried and shaped ears, deep rib and strong hindquarters. Nice lines in profile and moved out well both ways.
